

Sander Aquarium Systems

Ozonizer XT 2000

Rated up to 2000 mg/h of ozone output, the **XT 2000** model ozonizer is unique in its line. Its high quality components and processor-controlled ozone production design ensure reliable ozone output while keeping energy consumption to a minimum.

The ozonizer is equipped with a large touch screen display for quick access and fine control of all the operational parameters.

The **XT 2000** is a professional tool for the ambitious aquarist and is perfectly suited for fresh water, ponds and marine water applications.

Ozone output	mg/h	0-2000
Continuous adjustment	%	0-100
Power consumption	W	42
Air flow rate	L/h	50-1000
Fresh water volume up to	L	40 000
Marine water volume up to	L	20 000
